Dear Sir:

In response to the Office Communication mailed May 22, 2007, please reconsider the subject application in view of the following remarks. Applicant's reply filed on 1/26/2007 was considered not fully responsive for Applicant's failure to state which of claims of elected Group II (consisting of claims 9 and 11) read on the elected species of Example 8 of Applicant's specification. Applicant believes that claim 9 reads on the elected species. With this additional information, it is believed that Applicant's reply to the restriction requirement mailed January 5, 2007 is now fully satisfied.

Respectfully submitted,

Richard P. Silverman
